## SST Solve-A-Problem – Junior

**A museum has 15 very old dolls. Twelve of them are taken away to be repaired. How many dolls are left?**

## SST Solve-A-Problem – All

**A school has eight lessons in a day. Every lesson lasts for 45 minutes. What is the total number of hours that children spend in lessons???**

## SST SOLVE A PROBLEM -CHALLENGE

### Classrooms in a Row

Five classrooms are positioned next to each other in a row.

The five classroom teachers are Mrs. Jones, Mr. Smith, Miss Hall, Miss Good and Mr. Dean.

**Look at the clues below and match the teachers to their classrooms.**

- Clue 1** Mrs. Jones' room is at one end of the block.
- Clue 2** Miss Hall's room is between Mr. Smith's and Miss Good's rooms.
- Clue 3** Mr. Smith's room is next to Mrs. Jones' room.
- Clue 4** Mr. Dean's room is not Room 1.

Room 1	Room 2	Room 3	Room 4	Room 5
