

# Solve a Problem 20<sup>th</sup> Dec 2018

## Junior

Rudolph eats 2 carrots every day. How many carrots did he eat in December?

---

## All

Every hour my watch loses 10 seconds.

If I set it correctly at midday on Monday what time will it show at midday on Wednesday?

(Answer in digital. e.g. 10.35)

---

## Challenge

I am a number.

I am a multiple of 2, 3, 4, 5, 6, 7, 8, 9 and 10.

I am less than 3,000.

Who am I?
