## **SST SOLVE A PROBLEM –CHALLENGE**

### **Piles of Books**

A teacher has two piles of books on her desk. There are three books in each pile. There is one book on each of the following subjects: Science, Mathematics, English, History, Health, and Art.

**Use the clues below to put the books in order.**

- Clue 1**      The Mathematics book is directly under the English book.
- Clue 2**      The Art book is in the second pile but is not on top of the pile.
- Clue 3**      The History book is on top of the English book.
- Clue 4**      The Health book is between the Science book and the Art book.
