Maths Week 2022

Solve a Problem

Wednesday 19th Oct

Junior

Val had 14 jelly babies.

She ate half of them.

Then she gave 3 to her brother.

How many has she left?

All

The time on my watch is 14.00 (2.00 pm).

If my watch loses 1 second every minute, what time will it show 5 hours from now?

Challenging

I am a three digit number.

My last digit is 25% of my first digit.

I am a multiple of 9.

If you double me, I will be greater than 1,000.

Who am I?
